TUNDRA WHITE

For centuries the natural stone Tundra has been quarried from Mount Grey in the Isparta region of Western Turkey. This limestone becomes marble under intense mountain forming temperature and pressure, causing unique cloudlike patterns, in the grey and white veining.

Our Tundra tile exhibits the best of this wonderful natural stone, with multiple faces giving you the pattern variation you need for authenticity.

TUNDRA

The Tundra series is available in a Matt **SmoothGrip** finish, new with anti-slip tile technology and a smooth finish on both internal and external applications. It is also available in Lappato, with both finishes suitable for domestic and light commercial settings.

‡ Our new SmoothGrip finish uses the latest nano-surface technology to produce a smooth surface, with a high degree of slip resistance. This new surface provides a durable, tactile, low maintenance finish with aesthetic appeal, without sacrificing safety.

Not all sizes, colours and finishes are available in each state. Please contact your Sales Representative, Local Office, or check on the Stoneworld Portal for availability, full terms and conditions of sale and further information on our products.

*Tiles may vary in sizing, weight, colour, pattern, veining, texture, durability, density, surface and finish from batch to batch. Slip ratings serve as an indication and may vary for each batch of tiles. It is recommended that a new test be performed for each batch of tiles if a slip rating certificate is required. The product images shown are for illustration purposes only and are not an exact representation of the product.
